

IPM In Multifamily Housing Training

Agenda

Times may be adjusted to accommodate trainees' needs.

- 8:15 Overview and Introductions
- 8:45 Cockroaches (60 mins)
- Break*
- 10:00 IPM and Pesticide Use (60 mins)
- 11:00 Indoor Demonstrations
- 11:45 *Working Lunch: discuss potential implementation projects*
- 12:45 Video: "IPM: A Real Solution to Pest Problems for Property Management and Staff"
- 1:00 Roles and Responsibilities Panel
- Pest Management Professional (PMP)
 - Property Manager
 - Resident Support Services
 - Housekeeping
 - Maintenance
 - Grounds/Landscaping
 - Resident
- 1:30 Rodents (45 mins)
- 2:15 Outdoor Demonstrations
- Break*
- 3:00 Bed Bugs (60 mins)
- 4:00 IPM Review Game (optional)
- IPM Exam and Course Evaluation
- Adjourn*

IPM In Multifamily Housing Training

Acknowledgments

The *IPM in Multifamily Housing* training program was developed by a partnership including National Center for Healthy Housing, National Pest Management Association, Northeastern IPM Center, Pennsylvania IPM Program, U.S. Centers for Disease Control and Prevention (CDC), U.S. Department of Housing and Urban Development (HUD), U.S. Department of Agriculture (USDA), and U.S. Environmental Protection Agency (EPA) with funding provided by HUD, USDA, EPA, and CDC.

This course is based on the training developed by Rivard's Resources: IPM, Boston Housing Authority, Boston University, and the National Center for Healthy Housing using HUD's *Promotion of Integrated Pest Management (IPM) as an environmentally-sound, economical and effective means to address a major resident concern* as the framework for an effective IPM program.

The materials contained herein present a research-based, balanced, and objective approach to pest management in affordable housing and are intended to be used in their entirety. Any nonobjective or partial use of the materials is not recommended. Products, vendors, or commercial services mentioned or pictured in the trainings or presentations are for illustrative purposes only and are not meant to be endorsements.

IPM In Multifamily Housing Training

Course Information

Goals

Trainees completing the course will know:

- Their specific roles in supporting the least toxic and most effective measures for pest control in their communities;
- How to manage pests within a housing community using strategies that pose no risk or minimum risk of pesticide exposure to vulnerable, sensitive, and disabled populations including infants and children, the elderly, pregnant women, and people with chemical sensitivities;
- The major health risks posed by common pests, including the connection between asthma and cockroach and mouse allergens;
- The biology, behavior, and at least two least-toxic control measures for each of the pests covered in the training; and
- Whom to contact and what to do if there is a problem with or related to pest control.

Materials

- Sign-in Sheet
- Agenda
- PowerPoint Presentations
 - Introduction
 - Cockroaches
 - IPM & Pesticide Use
 - Roles and Responsibilities
 - Rodents
 - Bed Bugs
 - IPM Review Game
- Evaluations
 - IPM Exam
 - Course Evaluation
- Exercises (front pocket)
 - Read the Label Exercise
 - Indoor Demonstration
 - Outdoor Demonstration
- References Provided:
 - HUD Guidance on IPM: Notice PIH 2011–22
 - HUD Notice on Bed Bugs: Notice H 2011-20
 - Pest Fact Sheets on Cockroaches, Rodents, Bed Bugs, Ants, Fleas, and Yellowjackets
- Course Certificate
